Pavlov P.P. Data base study of peasant farmings history of Chuvash republic

The article is based on archival, statistical, legislative, regulatory and other materials displaying source base study of the history of peasant (farmer) facilities in Chuvash. The author considered new, previously unpublished sources in the State archive of the contemporary history of the Chuvash Republic and the scientific archive of the Chuvash state institute of humanities, including the stamps "for official use only" and "not for publishing", fully reflecting the history of formation and development of peasant farms in the region. The author also analyzed numerous sources of this problem, including legislation, current archives of the institutions, agricultural enterprises, peasant farms and publications in central and regional mass media.

Key words: historical database, peasant (farmer) facilities, the Head of KFH, archival materials, statistical sources, legislative acts, legal documents.
