Plekhova O.A. Administrative reforms in 1990s: critical view

This article analyzes carried out in the 1990s reforms of the state apparatus. This was a time of radical reorganization of the entire economic and political structure of the country. Against this background, it was very important to form a new administration, the new conditions of time. The paper analyzes the advantages and disadvantages of those who were admitted during the administrative reforms. Conducted in 1990s reforms efforts in general have failed. However, it should be noted that at this time it was received the first experience of a legal framework and the formation of the civil service. It created the first basic laws. By the beginning of 2000 in the state there is a need for the second wave of reforms of government.

Key words: administrative reform, democracy, transition period, bureaucracy.
