### **Notion and essence of constitutional control**

It is noted that the essence of the constitutional control can be defined taking into account four tasks solved by it. First, this ensuring rule of the Constitution, secondly, ensuring direct and direct action of the Constitution, in the third, use of control powers for development of legal space within the constitutional legality. The fourth problem of the constitutional control represents creation of legal opportunities for legislation development within the legal framework which bases are fixed in the country Constitution.

Key words: Constitutional control, concept of the constitutional control, essence of the constitutional control.
