

## PHILOSOPHY

***Margarita V. Finko***

*(Don state technical university. Rostov-on-Don, Russian Federation)*

### **The problem of personal self-identification of I.A. Ilyin philosophy**

The problem of self-identification of the personality from the point of view of such basic concepts as search of meaning of life and mission of the person is considered. For the modern socio-cultural situation, the appeal to I. Ilyin's philosophical heritage is rather typical since a lot of ideas formulated by him on the problems of Russian culture such as the search for the meaning of life, spiritual and moral values, are still urgent today when one of the main objectives facing modern Russian society is the problem of unity of all constructive forces for preservation of the cultural, spiritual and moral values inherent to our people.

Key words: Russian culture, sense of life, moral values, spirituality, national idea, freedom.
