Criteria for evaluating the development of the commanders' management competence of national guard army divisions of the Russian Federation

It is considered the problem of determining the evaluation criteria, allowing to assess the level of development of the managerial competence of the commanders of the units of the National Guard troops of the Russian Federation. In order to objectively assess the level of managerial competence of the commanders of subunits, criteria are needed, applying which data can be obtained on the level of competence of commanders when performing professional activities. Such criteria are considered to be the general criteria "Educational and managerial competence" and "Activity-managerial competence", and the corresponding private criteria. The article shows the possibility of ranking the levels of development of managerial competence of the commanders of subdivisions and gives a qualitative characteristic of each level.

Key words: criterion, level of development, managerial competence, national guard troops.
