Promoting patriotism while working with youth extracurricular and in class

It is considered the problem of educational work at the higher education establishment. It is underlined the importance of promoting patriotism among the students of universities in accordance with the state program “Promotion of patriotism among the citizens of Russian Federation during 2016-2020”. Teaching humanities and foreign language especially gives wide opportunities to integrate patriotism promotion into educational process. The article demonstrates the division of educational work into extracurricular and classwork. Some forms of work fostering patriotic education are listed. It is mentioned some forms of group work which appeared after the introduction of distance learning and aimed at the promotion of the educational targets.

Key words: patriotism promotion, educational work, Great Patriotic War, forms of extracurricular and classwork, distance learning.
