Socio-cultural constants and their role in the process of forming historical consciousness

It is considered socio-cultural constants as the structure-forming elements of historical consciousness, revealed the essential characteristics of socio-cultural constants and their interaction in the structure of historical consciousness. Within the framework of the study, socio-cultural constants mean socio-cultural phenomena corresponding to certain historical stages of the development of society, capable of transforming their essential content or semantic content. The article notes the specifics of the formation of historical consciousness in modern socio-cultural conditions of uncertainty, indicates certain risks associated with the possibilities of forming a discrete historical consciousness of modern society.

Key words: socio-cultural constants, socio-cultural context, historical consciousness, discrete historical consciousness.
